MINDSTYLE INSIDE – BUSINESS VISION

**Hidden information is indistinguishable from ignorance!
Release the wisdom and realise your full potential**

Duration - One Day

“When you can do the common things in life in an uncommon way, you will command the attention of the world.” - George W. Carver

Imagine individuals, teams and/or groups of teams, situated in one place or at locations across the world.

Then see them working together with uncommon ‘tools’ in a common ‘space’, creatively sharing ideas and immediately, visibly capturing and recording them.

That is the reality of Business Vision™ as a process, combined with MindManager® the leading visual mapping tool.

Together they allow you to carry out your common business tasks in a powerful, efficient and comprehensively uncommon way

Managers and Key Staff who introduce these ideas and this software will command the attention of their organisation as they carry out their work faster and more successfully with less stress and more fun than ever thought possible.

Mindstyle Education is exciting and holistic, delegates engage the whole brain and the body in their learning experiences

Course Overview and Content

The morning portion of the workshop is an introduction to accelerated learning and productivity models, including a discussion of whole brain thinking and business mapping. Short exercise segments are used to reinforce the learning of these techniques. The remainder of the day focuses on MindManager features in learning modules based around typical office applications. Each module is made up of step-by-step instructor demonstrations of MindManager features and participant exercises on individual machines. The course content includes:

Brainstorming

Different techniques used to facilitate brainstorming.

Taking Notes Part 1

Take better and more useful meeting notes.

Basic Exercises

A step-by-step presentation of basic features including: Screen elements and menus Starting new maps Adding branches Editing branches Colouring branches, adding codes and symbols

Preparing a Talk or Paper

Organisation of a paper or talk using MindManager features and methods.

Taking Notes Part 2

Eliminate the need for completing minutes after the meeting by learning techniques on meeting management interpreted through MindManager features.

Preparing a Presentation

Create compelling presentations with MindManager's Presentation Mode or Export your maps to PowerPoint or HTML.

Project Management

Initiate projects and processes effectively in less time by learning MindManager's synchronisation and Power Select features.
